#### **Pace of Play**

Four hours or less is our goal and allows full enjoyment by all Members and Guests. Groups failing to keep pace and falling behind by one hole may have to skip a hole to catch up. Play ready golf.

#### **Taking Care of the Course**

Replace divots properly. Put them back the same way they came out. Rake traps thoroughly and properly. Always enter and leave the trap from the low side and avoid the high side of the trap. Keep motorized carts away from tees & greens. Observe the marked restricted areas and cart paths. Repair your ball marks on the greens.

#### **Lightning Rule**

When the siren sounds the golf course is closed and you must leave the golf course immediately and come to the Clubhouse. If the Clubhouse is too far to reach, then go to the nearest on-course shelter.

#### **Liability**

Glen Oak assumes no responsibility for personal injury or property loss or damage resulting from the act of any member or guest while within the Club's building or grounds.
